Section I – CHEMICAL PRODUCT IDENTIFICATION

Product Name: **Ink Sol UV-1000 Cleaner**

Product Description: Soy Based Cleaner for UV Inks

HMIS Ratings: 1 1 0

Section II - COMPOSITION/INFORMATION ON INGREDIENTS

Ingredient(s)	CAS #	Weight%
Soy Compound	confidential	50%

Section III – HAZARDOUS IDENTIFICATION

EMERGENCY OVERVIEW:

The product contains no substances which at their given concentration are considered to be hazardous to health.

Principal routes of exposure:

Eyes- This product may cause slight to moderate irritation to the eyes.

Skin- This product contains an ingredient known to be a sensitizer in animals. Therefore, prolonged or repeated contact with the product may result in allergic skin sensitization reactions.

Inhalation: Inhalation of vapors or mists of the product may be irritating to the respiratory system.

Ingestion: Ingestion of large amounts may produce gastrointestinal disturbances including irritation, nausea, and diarrhea.

POTENTIAL HEALTH EFFECTS

This product is not expected to pose a significant health hazard when normal industrial hygiene practices are followed.

Section IV – FIRST AID MEASURES

EYE CONTACT

Flush eyes thoroughly with large amounts of water for at least fifteen minutes. Get medical attention.

SKIN CONTACT

Wash skin with soap and water. Remove severely contaminated clothing and clean before reuse. Seek medical attention in the unlikely event that irritation occurs.

INHALATION

Remove source of contamination or move victim to fresh air. If symptoms persist, get medical attention. If the affected person is not breathing, apply artificial respiration. If breathing is difficult, give oxygen.

INGESTION

If ingestion of a large amount occurs, seek medical attention.

Section V – FIRE FIGHTING MEASURES

Extinguishing Media

Carbon dioxide, dry chemical or foam recommended. Apply water spray to keep exposed containers cool.

Special Fire-Fighting Procedures

Self-contained breathing apparatus (SCBA) and full protective equipment recommended. Firefighters should wear full fire-fighting turn-out gear including NIOSH-approved self contained breathing apparatus with full face piece operated in the pressure demand or other positive pressure mode.

Unusual Fire and Explosion Hazards

None known

FLAMMABILITY DATA

Flash Point:	non-flammable material
Flammability Limits:	Not applicable
Auto ignition Temperature:	Not applicable

NFPA RATINGS

Health:	1
Flammability:	1
Reactivity:	0

HMIS RATINGS

Health:	1
Flammability:	1
Reactivity:	0

Section VI – ACCIDENTAL RELEASE MEASURES

Small Spill

Contain spill immediately. Inert materials such as dry sand or sawdust may be used to help absorb any spilled material. Scoop or shovel into appropriate waste containers for disposal purposes. Soap and water may be used as necessary.

Large Spill

Contain spilled material immediately. Use an inert material such as dry sand, sawdust, or earth to help absorb large spills. Scoop or shovel waste material into drums. Prevent runoff from entering into storm sewers and ditches, which lead to natural waterways. Wear protective clothing to prevent exposure.

Section VII – HANDLING AND STORAGE

Handling

Avoid employee exposure through the use of appropriate engineering controls, adequate personal protective equipment, and good industrial hygiene practices. Wash thoroughly after handling. Handle in well-ventilated workspace. Keep away from open flames, hot surfaces, and sources of ignition.

Storage

Store in a moderately cool, dry, well-ventilated area away from direct sources of heat. Empty containers may contain product residues and should be handled accordingly. Position containers so that any labeling information is visible. Keep containers closed.

Section VIII – EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Controls

The use of local exhaust ventilation is recommended to control emissions near the source. Additional engineering controls should be used as necessary.

Personal Protection

Safety glasses with side shields, or goggles, are recommended. Impervious clothing should be worn when gross contact is likely, such as when cleaning up large spills. Wash at the end of each work shift. Any contaminated clothing should be removed and laundered.

Exposure Limits

There are no ACGIH TLVs or OSHA PELs established for this product itself, but for the following components of this product, the exposure limits are:

Ingredient(s)	CAS#	ACGIH	OSHA	Mexico
----------------------	-------------	--------------	-------------	---------------

N/A

Section IX – PHYSICAL AND CHEMICAL PROPERTIES

Appearance: clear amber liquid

Specific Gravity: .917 G/Cm³

Solubility in water: Moderately Miscible

Boiling Point: ~N/A

Volatile Organic Compounds: (VOCs) approx. 4%

pH Information: 6.5 – 7.5

Odor: Slight odor

Section X – STABILITY AND REACTIVITY

General:

This product is a stable compound and hazardous polymerization will not occur. Do not freeze.

Incompatibility:

Avoid strong oxidizing agents such as peroxides, chlorates, perchlorates, nitrates, and permanganates. Oxidizing materials may vigorously evolve oxygen in large amounts.

Hazardous Decomposition Products:

When involved in a fire, may produce aldehydes, ketones, or organic acids.

Section XI – TOXICOLOGICAL INFORMATION

Acute (Short –Term) Toxicity:

No known published data is available for this product. Oral LD50 is estimated to be greater than 5000 mg/kg. Dermal LD50 estimated to be greater than 2000 mg/kg.

Chronic (long-term) Toxicity:

No known published data is available for this product.

Mutagenicity:

No known published data is available for this product.

Routes of Potential Exposure:

Ingestion

Inhalation

Skin/Eye Contact

Section XII – ECOLOGICAL INFORMATION

This product has not been evaluated for its ecotoxicity. When used for its intended purpose, this product should not cause adverse effects in the environment.

Section XIII – DISPOSAL CONSIDERATIONS

General:

This product must be disposed of in accordance with all applicable federal, state and local regulations.

Waste Management:

Incineration or landfilling are recommended disposal techniques. Contact your state or local environmental agency for specific rules.

Section XIV – TRANSPORT INFORMATION

DOT/TDG: Please refer to the Bill of Lading/receiving documents for up-to-date shipping information.

Section XV – REGULATORY INFORMATION

OSHA Hazard Communication Standard Status

This product contains the following hazardous substances listed under OSHA's Federal Hazard Communication Standard 29 CFR 1910.1200:

Toxic Substances Control Act (TSCA) Status

All of the ingredients of this product have been reported to the U.S. EPA and are included in the TSCA chemical inventory.

California Proposition 65: This product is not subject to the reporting requirements under California's Proposition 65
